TAGPRINT® XPRESS solar

TAP INTO CODE COMPLIANCE

TAGPRINT® XPRESS SOLAR

MOBILE APP

The TagPrint Xpress Solar mobile app is a code reference and labeling tool designed specifically for the solar market. The app provides an easy guide through the most recent National Electrical Code (NEC) for photovoltaic labeling requirements and allows for ultra-efficient wireless printing of required labels.

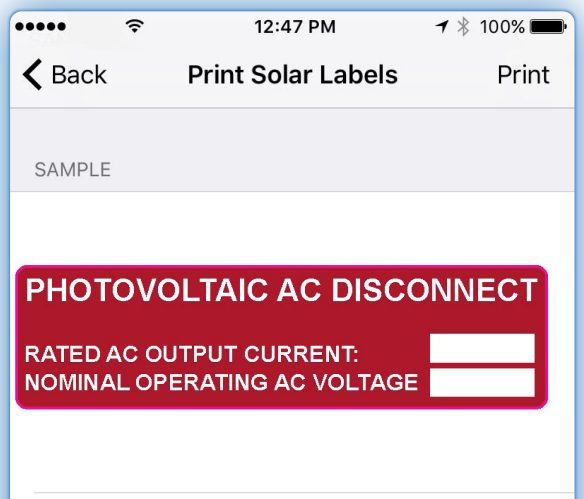
TAGPRINT XPRESS SOLAR BENEFITS

Print NEC code-compliant labels wirelessly

All labels required by NEC 2014, NEC 2017, NEC 2020 and NEC 2023 are pre-saved as visual templates in the app. Designed for use with HellermannTyton thermal transfer printers, the app turns a mobile device into a wireless mobile print command center, eliminating the need for a laptop or desktop computer.

NEC code reference tool helps ensure passed inspections

TagPrint Xpress Solar allows users to search for labels by application (e.g., conduit label). The detailed NEC code reference feature helps to ensure installers have all required labels per NEC and International Fire Code (IFC), to pass inspection the first time.



Make printing faster and easier with multiple printers

For fast, high-volume printing, TagPrint Xpress Solar allows users to network several printers. For example, an installer can print all labels required for a solar installation using three HellermannTyton printers loaded with different label stock; one with 2" orange striped continuous vinyl, one with 1" red reflective continuous vinyl and one with variable data labels.

Optimize workflow with multiple users

Any user with TagPrint Xpress Solar installed on their mobile device can access the same printers, increasing printing efficiency and workflow. No more labeling bottlenecks!

TagPrint Xpress Solar offers installers a new way to print labels and a better way to work.

Download the app for FREE from the App Store® or Google Play™.
(NOTE: the print function will only work with HellermannTyton brand thermal transfer printers.)

HOW TO USE TAGPRINT® XPRESS SOLAR

DOWNLOAD THE APP:

1. Visit the App Store or Google Play. Search for HellermannTyton or TagPrint Xpress Solar. Or, scan the QR Code.
2. Download the FREE TagPrint Xpress Solar app to your mobile device.

PRINT CODE -COMPLIANT LABELS

1. Go to the SOLAR Tab in the app and pick a labeling category.
2. Scroll to view labels.
3. To view the associated NEC code, tap on the ⓘ.
4. Connect your HellermannTyton thermal transfer printer (TT230SM, TT230SMC, TT4030, TTM430 or TTM460) to the network.
5. To print a label, simply tap on the label and choose a quantity.
6. If the printer includes a cutter, select the desired cut setting.
7. To begin printing, tap "Print" in the top right corner.
8. A prompt will appear confirming that the proper label stock for the selected label is inserted. Select "Confirm."
9. Apply the label to the installation!

TAGPRINT® XPRESS solar

FIND THE APPLICABLE NEC CODE REFERENCE

1. Go to the SOLAR Tab in the app and pick the code revision you require: 2014 Solar Labels, 2017 Solar Labels or 2020/23 Solar Labels.
2. Scroll to view labels.
3. To see the associated NEC code, tap on the ⓘ.
4. The associated code reference will be displayed.
5. Select "Back" to go back to the label selection screen.
